

« To give real service, you must add something which cannot be bought or measured with money, and that is sincerity and integrity. »

Douglas Adams

WHO WE ARE?

In 2012, Arrow Constructions, an electrical contracting firm, was established in Lebanon.

In 2017, Arrow Constructions expanded its basic in-house services to include mechanical contracting.

With the visionary leadership of its original founders assisted by a team of experienced professionals, Arrow Constructions achieved steady growth with an ever increasing quality standards.

Arrow Constructions exhibited a strong and firm approach to sustaining and encouraging safe work environments, and a demonstrated ability to streamline operations, all while applying continuous improvement principles to increase process and maintenance efficiency, and company profits.

Arrow Constructions continues to expand gradually to further increase the scope of in-house services provided and aims to provide our valued clients with turn-key solutions to all their construction needs in the future. Our main objective will be to always maintain the high level of professionalism and client relationship with all our future endeavors.

VISION

Operations

It's our vision to exceed our customer's expectations through responsive, caring and fiscally responsible service.

Planning

It's our vision to be forward thinking partners in the future development, exploring bold solutions and dynamic approaches to implement missions and goals.

Engineering

It's our vision to build facility excellence through innovation, state of the art technical support, expertise and collaboration.

Projects

It's our vision to deliver superior projects through creative problem solving, knowledge, expertise and effective project management.

MISSION VALUES

Professional and effective communication.

High standards for professional and personal accountability and management.

Practicing sustainable development management solutions.

Delivering value-added engineering facility.
